Application form  
Environmental authority

Application to amend an environmental authority

This approved form is to be used when applying to amend an environmental authority under sections 222 to 227 of the Environmental Protection Act 1994 (EP Act) for an environmentally relevant activity (ERA).

An application to amend an environmental authority is not appropriate in all circumstances. If you answer **YES** to any of the questions in the checklist below, you cannot use this application form. If you answer **NO** to all of the questions in the checklist, you may continue to use this application form.

This form also contains a question relating to the Regional Planning Interests Act 2014. If you are proposing to undertake resource activities in an area of regional interests, a regional interest development approval (RIDA) may be needed. Further information, including applications forms, can be found on the Department of Infrastructure, Local Government and Planning (DILGP) website, [www.dilgp.qld.gov.au](http://www.dilgp.qld.gov.au).

You are encouraged to have a pre-lodgement meeting before applying to amend your environmental authority. If you would like to have a pre-lodgement meeting:

- for prescribed ERAs 2, 3 and 4—contact the Department of Agriculture and Fisheries by email at livestockregulator@daf.qld.gov.au.
- for any other ERA—please fill out and lodge the form “Application for a pre-design/pre-lodgement meeting” (EM1125¹), prior to lodging this application form.

Checklist for making an amendment application

You must complete this checklist before you continue with the application form.

If your application is for:

- a prescribed ERA → fill in Section 1 and Section 2 of the checklist below
- a resource activity → fill in Section 1 and Section 3 of the checklist below
- both a prescribed ERA and a resource activity → fill in sections 1, 2 and 3 of the checklist below

If you have answered yes to any of the below questions, you cannot use this application form. If you have answered no to all of the below questions, you may continue to use this application form.

¹ This is the publication number. The publication number can be used as a search term to find the latest version of a publication at [www.qld.gov.au](http://www.qld.gov.au).

If yes, you cannot use this form. This request should be made in writing directly to the administering authority (no fees apply). |
| Is the amendment to amalgamate two or more environmental authorities?    | ☐ YES  
☒ NO  
If yes, you cannot use this form. Please use either the form Application to Amalgamate two or more Environmental Authorities into an Amalgamated Corporate Authority (EM789), or Application to Amalgamate two or More Environmental Authorities Into an Amalgamated Project or Local Government Authority (EM879). |
| Is the amendment to add an ERA to an amalgamated local government authority and there is not an appropriate degree of integration between the proposed activity and the existing activities on the authority? | ☐ YES  
☒ NO  
If yes, you cannot use this form. You will need to apply for a new environmental authority. For a standard application use the form Standard Environmental Authority Application (Prescribed Activity) (EM1283) or Standard Environmental Authority Application (Resource Activity) (EM1280). For a variation application, use the form Variation Environmental Authority (Prescribed Activity) (EM1284) or Variation Environmental Authority (Resource Activity) (EM1281). For a site-specific application use the form Site Specific Environmental Authority Application (Prescribed ERA) (EM1285) or Site Specific Environmental Authority Application (Resource Activity) (EM1282). |
| Is the amendment to add an ERA to an amalgamated project authority and the proposed activity does not form part of the single integrated operation conducted under the authority? | ☐ YES  
☒ NO  
If yes, you cannot use this form. You will need to apply for a new environmental authority. See form details above. |
| Is the amendment to amend financial assurance only?                      | ☐ YES  
☒ NO  
If yes, you cannot use this form. Please use the form Application to Amend or Discharge Financial Assurance (EM875). |
| Is the amendment to remove or amend a condition requiring compliance with the eligibility criteria, and is a result of changes to the activity? | ☐ YES  
☒ NO  
If yes, you cannot use this form. Please make a site-specific application for a new environmental authority using the form Site Specific Environmental Authority Application (Prescribed ERA) (EM1285) or Site Specific Environmental Authority Application (Resource Activity) (EM1282).

| ERA standard                              | For an environmentally relevant activity, means the eligibility criteria and/or the standard conditions set by the administering authority.                                                                                                                                                                                                  |
| Major amendment                           | For an environmental authority, means an amendment that is not a minor amendment.                                                                                                                                                                                                                                                         |
| Material change of use of premises for an environmentally relevant activity | A category of assessable development requiring a development permit under SPA. Refer Schedule 3, Table 2, Item 1 of the Sustainable Planning Regulation 2009.                                                                                                                                                                                    |
| Minor amendment                           | For an environmental authority, means an amendment that is—  
  (a) a condition conversion; or  
  (b) a minor amendment (threshold).  |
| Minor amendment (threshold)               | For an environmental authority, means an amendment that the administering authority is satisfied—  
  (a) is not a change to a condition identified in the authority as a standard condition, other than—  
    (i) a change that is a condition conversion; or  
    (ii) a change that is not a condition conversion but that replaces a standard condition of the authority with a standard condition for the environmentally relevant activity to which the authority relates; and  
  (b) does not significantly increase the level of environmental harm caused by the relevant activity; and  |
(c) does not change any rehabilitation objectives stated in the authority in a way likely to result in significantly different impacts on environmental values than the impacts previously permitted under the authority; and

(d) does not significantly increase the scale or intensity of the relevant activity; and

(e) does not relate to a new relevant resource tenure for the authority that is—
   (i) a new mining lease; or
   (ii) a new petroleum lease; or
   (iii) a new geothermal lease under the Geothermal Energy Act; or
   (iv) a new GHG injection and storage lease under the GHG storage Act; and

(f) involves an addition to the surface area for the relevant activity of no more than 10% of the existing area; and

(g) for an environmental authority for a petroleum activity—
   (i) if the amendment involves constructing a new pipeline—the new pipeline does not exceed 150km; and
   (ii) if the amendment involves extending an existing pipeline—the extension does not exceed 10% of the existing length of the pipeline; and

(h) if the amendment relates to a new relevant resource tenure for the authority that is an exploration permit or GHG permit—the amendment application under section 224 seeks an amended environmental authority that is subject to the standard conditions for the relevant activity or authority, to the extent it relates to the permit.

Mobile and temporary ERA

A prescribed ERA, other than an activity that is dredging material, extracting rock or other material, or the incinerating of waste:

(a) carried out at various locations using transportable plant or equipment, including a vehicle

(b) that does not result in the building of any permanent structures or any physical change of the landform at the locations (other than minor alterations solely necessary for access and setup including, for example, access ways, footings and temporary storage areas)

(c) carried out at any 1 of the locations:
   (i) for less than 28 days in a calendar year, or
   (ii) for 28 or more days in a calendar year only if the activity is necessarily associated with, and is exclusively used in, the construction or demolition phase of a project.

Prescribed ERA

An environmentally relevant activity that is not a resource activity and is prescribed under section 19 of the EP Act.
Prescribed ERA project  All prescribed ERAs carried out, or proposed to be carried out, as a single integrated operation.

Registered suitable operator  A person who, or a corporation which, under section 318I of the EP Act has been assessed as being suitable to carry out an ERA and has been listed on the suitable operator register.

Resource activity  An activity that is any of the following:
(a) a geothermal activity
(b) a greenhouse gas (GHG) storage activity
(c) a mining activity
(d) a petroleum activity.

Resource project  Resource activities carried out, or proposed to be carried out, under 1 or more resource tenures, in any combination, as a single integrated operation.

Single integrated operation  Occurs when all the below criteria are met:
(a) the activities are carried out under the day-to-day management of a single responsible individual, for example, a site or operations manager
(b) the activities are operationally interrelated
(c) the activities are, or will be, carried out at one or more places
(d) the places where the activities are carried out are separated by distances short enough to make feasible the integrated day-to-day management of the activities.

2. **Describe in detail the proposed amendment and the reason the amendment is being sought**

The decision of whether the amendment is major or minor is made by the administering authority. However, the administrative process requires you to indicate whether you think the proposed amendment will constitute a major or minor amendment. If you have questions regarding whether your amendment will be minor or major you are encouraged to arrange a pre-lodgement meeting with the administering authority.

Please indicate below whether you think the proposed amendment will constitute a major or minor amendment.

- [ ] Minor amendment – select minor amendment type
  - [ ] Minor amendment (condition conversion) – you wish to convert all conditions of your EA to the standard conditions for the ERAs to which the EA relates

  Go to question 21.

  By selecting this amendment type you are certifying that you have a complete and thorough understanding of, and can comply with the ERA Standard (eligibility criteria and standard conditions).

- [ ] Minor amendment (threshold) – Please complete the detailed description below

- [ ] Major amendment – please complete the detailed description below

For a **minor amendment (threshold)** or **major amendment**, provide a detailed description of your proposed amendment.

Include a justification of how your proposed amendment meets the criteria for a major or minor amendment and attach any supporting information to this application.

If the amendment is to add or delete a location, tenure or activity, or to change the threshold of an activity, provide details.
Background information

PROVIDE DETAILS OF THE CIRCUMSTANCES GIVING RISE TO THE PROPOSED AMENDMENT (IF INSUFFICIENT ROOM, ATTACH A SEPARATE DOCUMENT).

The purpose of this amendment is to add a mining lease application for minerals to the current EA, which covers the mining lease application ML100036. It has not been applied for for minerals, only camp and workshop area.

5. What is the ERA type you are applying to amend?

☑ Resource activity—this application involves resource activities → go to question 11

☐ Prescribed ERA—this application involves only prescribed ERA activities → go to question 6

Prescribed ERA information

This question is only relevant to prescribed ERAs as resource activities will not trigger assessable development under the Sustainable Planning Act 2009.

6. Are there any development permits in effect or have any development applications been made under the Sustainable Planning Act 2009 to carry out the proposed amendment?

If you have identified above that any of the ERAs have not commenced, please complete the below:

☐ I declare that where identified, the ERAs above have not commenced.
The final rehabilitation report must be completed in the correct template and contain all the information specified in the template. The final rehabilitation report template is available at www.qld.gov.au using the publication number (EM872) as a search term.

Only a person with appropriate environmental expertise and/or experience in planning and executing site operations should sign this statement. This person may be the environmental authority holder, a full time employee of the environmental authority holder or a consultant to the environmental authority holder.

Methods to verify compliance may include a desktop assessment of documentation, an interview with the landowner/holder or a field operator or a site inspection. Evidence used may include photographs, statements and other documentation (maps, plans, approvals, monitoring results etc.).

8. **Does your environmental authority contain any rehabilitation conditions that are applicable to the ERAs that you are requesting be removed from the environmental authority?**
   - [ ] Yes → you must attach a final rehabilitation report
   - [ ] No

9. **Compliance with conditions**

   A statement addressing compliance with environmental authority conditions must be completed by, or on behalf of the environmental authority holder. 

   Attach a separate document to this application form which states the extent to which:
   - the ERAs being removed from the environmental authority have complied with each relevant condition of approval
   - the final rehabilitation report is accurate (include the date of the final rehabilitation report). Note: The compliance statement only needs to be made for the final rehabilitation report if the answer to question 8 is ‘Yes’

   Describe the qualifications and experience of the person signing the statement.
Provide details of the date, method and evidence used to verify compliance and accuracy.

Provide the contact number of the person signing the statement

I ..................................................................................................................................................,
(insert name and position of person making the compliance statement)

• make the statement by or for the holder of the environmental authority

• confirm that, to the best of my knowledge, all information provided as part of this statement, including attachments, is true, correct and complete. I am aware that it is an offence under section 480 of the Environmental Protection Act 1994, to give the administering authority information that I know is false, misleading or incomplete

• confirm that, to the best of my knowledge, this statement, including attachments, does not include false, misleading or incomplete information

• confirm that, to the best of my knowledge, I have not knowingly failed to reveal any relevant information or document to the administering authority

• confirm that, to the best of my knowledge, all information provided in this statement, including attachments, address the relevant matters and are factually correct

• confirm that the opinions expressed in this statement, including attachments, are honestly and reasonably held

• I understand that all information supplied as part of this statement, including attachments, can be disclosed publicly in accordance with the Right to Information Act 2009 and the Evidence Act 1977.

SIGNATURE .......................................................... DATE ..........................................................

If your amendment application also involves resource activities, go to question 10. Otherwise, go to question 16.
Resource activity information

10. Is the resource activity located anywhere within an area of regional interest?

☐ No

☐ Yes, which regional interest area, have or will you require a regional interests development approval?

☐ Priority Agricultural Areas (PAAs) application reference:

☐ Priority Living Areas (PLAs) application reference:

☐ Strategic Environmental Areas (SEAs) application reference:

☐ Strategic Cropping Area (SCA, formerly Strategic Cropping Land) application reference:

☐ No regional interests development approval required, I am an exempt activity.

11. Environmental offsets

An environmental offset may be required for an ERA where despite all reasonable measures to avoid and minimise impacts on certain environmental matters, there is still likely to be a significant residual impact on one or more of those matters.

You must verify the presence, whether temporary or permanent, of those environmental matters. For more information refer to the State Significant Impact Guideline at the Queensland Government website at: www.qld.gov.au/environment/pollution/management/offsets/index.html

Will the proposed amendment cause a significant residual impact to a prescribed environmental matter (other than a matter of local environmental significance)?

☐ No

☐ Yes, please attach supporting information that:

- details the magnitude and duration of the likely significant residual impact on each prescribed environmental matter (other than matters of local environmental significance) for the entire activity; and
- demonstrates that all reasonable measures to avoid and minimise impacts on each of those matters will be undertaken; and
- if the activity is to be staged, details of how the activity is proposed to be staged

☐ I have attached the supporting information.
12. Public notice requirements. Please select one of the options below:

- [x] The application relates to a mining activity only and public notice requirements will not apply
- [ ] I have included details of the website where copies of the application notice and application documents will be made available during public notification stage. If the administering authority will require permission to link to this website, also provide contact details of the person who will be able to assist the administering authority in this process.
- [ ] I cannot make this information available on a website. All of the application information has been provided to the administering authority in an electronic format.

13. Does the application relate to an environmental authority for a coal seam gas activity that is an ineligible ERA?

- [x] No → go to question 14
- [ ] Yes→
  - [ ] I have determined that the amendment will not change the way that CSG water is managed.
  - [ ] I have determined that the amendment will change the way that CSG water is managed and have provided the mandatory information set out below.

<table>
<thead>
<tr>
<th>MANDATORY INFORMATION</th>

<tbody>
<tr>
<td>The quantity of CSG water the applicant reasonably expects will be generated in connection with carrying out each relevant CSG activity.</td>
</tr>
<tr>
<td>The flow rate at which the applicant reasonably expects the water will be generated.</td>
</tr>
<tr>
<td>The quality of the water, including changes in the water quality the applicant reasonably expects will happen while each relevant CSG activity is carried out.</td>
</tr>
<tr>
<td>The proposed management of water including, for example, the use, treatment, storage or disposal of the water.</td>
</tr>
</tbody>
</table>
The measurable criteria ('management criteria') against which the applicant will monitor and assess the effectiveness of the management of the water, including, for example, criteria for each of the following:

(i) the quantity and quality of the water used, treated, stored or disposed of
(ii) protection of the environmental values affected by each relevant CSG activity
(iii) the disposal of waste, including, for example, salt, generated for the management of the water.

The action proposed to be taken if any of the management criteria are not complied with, to ensure that the criteria will be able to be complied with in the future.

If the application includes a CSG evaporation dam, an evaluation of the following must be provided:

(i) best practice environmental management for managing CSG water
(ii) alternative ways for managing CSG water
(iii) whether there is a feasible alternative to a CSG evaporation dam for managing the water. Note if the evaluation shows that there is a feasible alternative option, the CSG evaporation dam cannot form part of the water management for this amendment application.

General ERA information

Completion of an EIS process is defined in section 60 of the EP Act.

14. Has an environmental impact statement (EIS) process that includes the proposed amendment, been completed?

☒ No
☐ Yes → ☐ I have assessed the environmental risks of the proposed amendment and consider them to be the same as was assessed in the EIS. A copy of the assessment is attached. Go to question 17

☐ I have assessed the environmental risks of the proposed amendment and consider them to be different to what was assessed in the EIS. Go to question 15
The information provided here will assist the administering authority in deciding whether an EIS is required.

For further information refer to the guideline: Triggers for Environmental Impact Statements under the Environmental Protection Act 1994 for mining, petroleum and gas activities. This guideline is available at [www.qld.gov.au](http://www.qld.gov.au), using the search term 'triggers for environmental impact statements'.

### 16. Assessment of the environmental impact and provision of specific supporting information

You must provide an assessment of the likely impact of the proposed amendment on the environmental values, including the following mandatory information in the table below, unless the not applicable check box is ticked.

Only tick the ‘Not Applicable’ check box if the proposed amendment does not cause a change to the environmental values, aspects and impacts as approved under the current environmental authority.

Where the ‘Not Applicable’ option is selected, **sufficient information must be provided to support this determination**, as the determination forms part of the required assessment.

To provide a response to the mandatory information, specific supporting information must be provided to the administering authority, the type and detail of which will depend on your particular ERA project. Supporting material for technical information requirements is located on the business and industry website [www.business.qld.gov.au](http://www.business.qld.gov.au).
You must include a description of the proposed measures for minimising and managing waste generated by the proposed amendments.

For further information on technical information to provide with your application, please refer to the business and industry website www.business.qld.gov.au.

If you currently have a Plan of Operations in place and would like to change the amount of financial assurance held, please contact Permit and Licence Management. Details are provided at the end of this form.

### 17. Provide details of the proposed measures for minimising and managing waste generated by any amendments to the relevant activity.

WASTE MANAGEMENT DETAILS. IF WASTE IS TO BE MANAGED ACCORDING TO AN EXISTING WASTE MANAGEMENT PLAN, PROVIDE THE RELEVANT PAGE OR SECTION NUMBERS.

The applicants intend to regularly remove campsite and machinery waste (e.g., oil) from the site regularly, when they go out to nearly towns for supplies.

### 18. Do you currently have financial assurance held as part of the approved environmental authority

- [ ] No
- [ ] Yes → I will not need to change the financial assurance in relation to this amendment.
  - [ ] I will be changing the financial assurance and have attached the form Application to Amend or Discharge Financial Assurance for an Environmental Authority (EM875)
  - [ ] I will be changing the financial assurance and will be amending or replacing my Plan of Operations.

### 19. Is this land currently subject to an environmental protection order or a site management plan?

- [ ] No
- [ ] Yes → I have an environmental protection order in place and the details are provided below.
- [ ] I have a site management plan in place and the details are provided below.

### 20. Is any part of the land currently recorded in, or previously been recorded in, the environmental management register?

- [ ] No
Application fee

An application fee is payable at the time the application is made. Information on the fee can be located in the information sheet “Fees for permits for environmentally relevant activities (ERAs)” (EM33).

To pay by credit card you will need to provide contact details so you can be contacted for your credit card payment to be made over the phone.

Assessment fee for “major amendment”

Where the proposed amendment is determined by the administering authority to be a “major” amendment, an assessment fee of 30% of the annual fee for the authority at the time of application, is also payable. The assessment fee is payable once notification of the assessment level decision is issued. The assessment fee must be paid before the assessment of the amendment application can proceed.

Where the amendment is approved and it results in a higher Aggregate Environmental Score (AES) for an activity this will give rise to a supplementary fee becoming payable where the annual fee is based on this AES. The supplementary fee relates to the annual fee, and is calculated on a prorata basis to the next anniversary date. This is payable within 20 business days after the approval date.

21. Payment of fees

| Application fee: | $295 |

You may pay your fee via cheque, money order or credit card.

Select the payment method below:

- Payment by cheque or money order made payable to the Department of Environment and Heritage Protection (attached).
- Payment by cheque or money order made payable to the Department of Agriculture and Fisheries (attached).
- Please contact me (the applicant) for credit card payment:

22. Declaration

Note: If you have not told the truth in this application you may be prosecuted.

Where an agreement is in place between all holders of the environmental authority, that 1 holder can sign on behalf of the other joint holders, please tick the below checkbox.

☑️ I have the authority to sign this form on behalf of all the joint holders of the environmental authority.

I declare that:

- I am the holder of the environmental authority, or authorised signatory for the holder of the environmental authority.
- If the proposed amendment is made, the relevant activities will continue to comply with the ERA Standard (eligibility criteria and standard conditions) for all eligible ERAs, or where they cannot, I have indicated otherwise in my application and provided the required support information.
- If the proposed amendment is a minor amendment (condition conversion) that I can comply with the ERA Standard (eligibility criteria and standard conditions) for each of the ERAs authorised by the environmental authority.
- The information provided is true and correct to the best of my knowledge.

I understand that it is an offence under section 480 of the Environmental Protection Act 1994 to give to the administering authority or an authorised person a document containing information that I know is false, misleading or incomplete in a material particular.

I understand that I am responsible for managing the environmental impacts of these activities, and that approval of this application is not an endorsement by the administering authority of the effectiveness of management practices proposed or implemented.

Q. 16 – ENVIRONMENTAL VALUES LIKELY TO BE AFFECTED.

1. The Application area is in a Watercourse, under the Water Act 2000.

Values affected - Nil – Please see attached, the relevant sections of the MSES, Biodiversity and RE reports over the area.

There are no MSES values identified. 90.8% of the area in the Biodiversity and Regional Ecosystems reports are of no concern. The applicant intends to work around all standing trees or other vegetation.

2. Emissions – No emissions or releases will be generated. All vegetation and large rocks will be avoided. As material is worked, the small rocks and sand will be put into a settling pond before release back into the watercourse.

3. Risks and likely magnitude of affects – Considering the planned production method and almost NIL values affected, risks and likely magnitude will be minimal to nil.

4. Management practices – No vegetation or large rocks will be moved. All machinery and campsite waste will be removed regularly from the site.

5. Rehabilitation – As there will be very little impact from the mining methods, rehabilitation requirements are minimal. As mentioned, settling ponds will be used to ensure that no silt laden water will be released into the watercourse. Any rehab of the mining will be undertaken as mining of an area is completed.

Please note that the area and percent area figures in the table above will not necessarily add up to the "Total MSES" figures due to overlapping values.

**The total linear extent of watercourses may be overestimated in some instances, as both banks (rather than the centreline) of waterbodies and larger watercourses where present are mapped by the State, increasing the extent of linear features.

Fill for CSG activities where the applicant has confirmed CSG water management will change (question 16)

Administrative check to determine the application includes the following:

☐ the quantity of CSG water the applicant reasonably expects will be generated in connection with carrying out each relevant CSG activity;
☐ the flow rate at which the applicant reasonably expects the water will be generated;
☐ the quality of the water, including changes in the water quality the applicant reasonably expects will happen while each relevant CSG activity is carried out;
☐ the proposed management of the water including, for example, the use, treatment, storage or disposal of the water;
☐ the measurable criteria (the management criteria) against which the applicant will monitor and assess the effectiveness of the management of the water for example, criteria for each of the following
  (i) the quantity and quality of the water used, treated, stored or disposed of;
  (ii) protection of the environmental values affected by each relevant CSG activity;
  (iii) the disposal of waste, including, for example, salt, generated from the management of the water;
☐ the action proposed to be taken if any of the management criteria are not complied with, to ensure the criteria will be able to be complied with in the future
