Application form

Environmental Protection Act 1994

Standard application for a new environmental authority for a resource activity

This is the approved form that is to be used to make a standard application for an environmental authority under sections 122, and 125 of the Environmental Protection Act 1994 (EP Act) for an environmentally relevant activity (ERA) which is a resource activity.

It is recommended that applicants read the information on what to provide with an application, prior to making an application. This information, along with the ERA standard (consisting of eligibility criteria and standard conditions), is located on the Queensland Government’s business and industry website at www.business.qld.gov.au (use the search words “Environmental Licence”). This website also has a diagnostic tool called a “Forms and fees finder” which will take you through a series of questions and provide a customised result, which will identify any forms, fees and supporting information you need for your application.

Only use this application form if you are applying for a new environmental authority (EA) where:

☑ All of the ERA’s being applied for are resource ERAs, that is: (a) a geothermal activity, (b) a greenhouse gas (GHG) storage activity, (c) a mining activity or (d) a petroleum activity.
☑ All of the ERA’s being applied for have eligibility criteria and standard conditions available.
☑ You can meet all of the eligibility criteria and standard conditions for all of the ERA’s being applied for.
☑ An application for a relevant resource tenure has been made, or will be made at the same time as this application.
☑ The applicant/s for the resource tenure are exactly the same as the applicant/s for this environmental authority application.
☑ The ERA’s being applied for do not form part of an ERA project under existing environmental authority.
☑ The ERA’s being applied for are not being carried out as part of a coordinated project.
☑ If more than one ERA is being applied for, the activities must be carried out as part of a single integrated operation.
  ○ All of the ERAs are operationally interrelated, that is, the operation cannot function without all of the ERAs. Separate applications will need to be made for the ERAs that cannot be carried out as a single integrated operation.
  ○ The places where the ERAs will be carried out are close enough to make the integrated day to day management of the activities feasible.
  ○ The ERAs being applied for will be carried out under the day to day management of a single responsible person (e.g. a site manager or operations manager).

If you would like to have a pre-lodgement meeting:

- Please fill out and lodge the form “Application for a pre-design/pre-lodgement meeting” (EM11251), prior to lodging this application for an environmental authority.

2 ERAs with eligibility criteria and standard conditions are listed at: www.business.qld.gov.au (use the search term "eligibility criteria").
5. Payment of fees

You are required to pay an application fee at the time of application. If your application is approved you will be required to pay a fee annually. Each ERA has a regulated fee and the annual fee will be the highest annual fee of any ERA associated with the ERA project. The first annual fee will be invoiced when one or more of the tenures are granted. Information on fees is available at www.business.gov.au.

Please select your payment method for the application fee below:

☐ Cheque or money order payable to the Department of Environment and Heritage Protection (attached).
☒ Credit card. Please provide contact details and we will contact you for payment to be made over the telephone.

Telephone number: EDEN HODSON 3221 2249

6. Applicant certification

I declare that the information I have provided is true and correct. I understand that it is an offence to give information that I know is false, misleading or incomplete.

I will comply with all conditions on my environmental authority as well as any relevant provisions in the Environmental Protection Act 1994.

I understand that I am responsible for managing the environmental impacts of these activities, and that approval of this application is not an endorsement by the administering authority of the effectiveness of the management practices proposed or implemented.
