Application form

Environmental authority

Application to amend an environmental authority

This approved form is to be used when applying to amend an environmental authority under sections 222 to 227 of the Environmental Protection Act 1994 (EP Act) for an environmentally relevant activity (ERA).

An application to amend an environmental authority is not appropriate in all circumstances. If you answer yes to any of the questions in the checklist below, you cannot use this application form. If you answer no to all of the questions in the checklist, you may continue to use this application form.

This form also contains a question relating the Regional Planning Interests Act 2014. If you are proposing to undertake resource activities in an area of regional interests, a regional interest development approval (RIDA) may be needed. Further information, including applications forms, can be found on the Department of State Development, Infrastructure and Planning (DSDIP) website, www.dsdip.qld.gov.au.

You are encouraged to have a pre-lodgement meeting before applying to amend your environmental authority. If you would like to have a pre-lodgement meeting:

- For prescribed ERAs 2, 3 and 4—contact the Department of Agriculture, Fisheries and Forestry by email at livestockregulator@daff.qld.gov.au.
- For any other ERA—please fill out and lodge the form Application for a Pre-Design/Pre-Lodgement Meeting (EM1125), prior to lodging this application form.

Checklist for making an amendment application

You must complete this checklist before you continue with the application form.

If your application is for:

- a prescribed ERA → fill in Section 1 and Section 2 of the checklist below
- a resource activity → fill in Section 1 and Section 3 of the checklist below
- both a prescribed ERA and a resource activity → fill in sections 1, 2 and 3 of the checklist below

If you have answered yes to any of the below questions, you cannot use this application form. If you have answered no to all of the below questions, you may continue to use this application form.

1 This is the publication number. The publication number can be used as a search term to find the latest version of a publication at www.qld.gov.au.

Definitions of terms used in this form

Where there is inconsistency between the definition of terms used here and the terms used in the EP Act, the terms in the EP Act apply.

Environmentally relevant activity (ERA)  A resource activity or a prescribed ERA

ERA project  A prescribed ERA project or a resource project.

Mobile and temporary ERA  A prescribed ERA, other than an activity that is dredging material, extracting rock or other material, or the incinerating of waste:

(a) carried out at various locations using transportable plant or equipment, including a vehicle
(b) that does not result in the building of any permanent structures or any physical change of the landform at the locations (other than minor alterations solely necessary for access and setup including, for example, access ways, footings and temporary storage areas)
(c) carried out at any 1 of the locations:
   (i) for less than 28 days in a calendar year, or
   (ii) for 28 or more days in a calendar year only if the activity is necessarily associated with, and is exclusively used in, the construction or demolition phase of a project.

Prescribed ERA  An environmentally relevant activity that is not a resource activity and is prescribed under section 19 of the EP Act.

Prescribed ERA project  All prescribed ERAs carried out, or proposed to be carried out, as a single integrated operation.

Registered suitable operator  A person who, or a corporation which, under section 318I of the EP Act has been assessed as being suitable to carry out an ERA and has been listed on the suitable operator register.

Resource activity  An activity that is any of the following:

(a) a geothermal activity
(b) a greenhouse gas (GHG) storage activity
(c) a mining activity
(d) a petroleum activity.

Resource project  Resource activities carried out, or proposed to be carried out, under 1 or more resource tenures, in any combination, as a single integrated operation.

Significant project  A project declared under section 26 of the State Development and Public
**Works Act 1971** to be a significant project.

**Single integrated operation**

Occurs when all the below criteria is met:

(a) the activities are carried out under the day-to-day management of a single responsible individual, for example, a site or operations manager

(b) the activities are operationally interrelated

(c) the activities are, or will be, carried out at 1 or more places

(d) the places where the activities are carried out are separated by distances short enough to make feasible the integrated day-to-day management of the activities.
GUIDE

If you require assistance in answering any part of this form, or have any questions about your application please contact the relevant department. Contact details are at the end of this form.

The environmental authority number and details may be found on the existing environmental authority or quoted in other correspondence received from the administering authority.

If more space is required for any responses, please attach additional information as a separate page.

If there is an agent acting on behalf of the environmental authority holder, provide details in this section. An agent could be a consultant or a contact for the environmental authority holder.

As statutory documents need to be sent to all applicants, this section can also be used when there are multiple environmental authority holders to nominate an address for statutory documentation to be sent ‘care of’ to.

2. Describe in detail the proposed amendment and the reason the amendment is being sought

The decision of whether the amendment is major or minor is made by the administering authority. However, the administrative process requires you to indicate whether you think the proposed amendment will constitute a major or minor amendment. If you have questions regarding whether your amendment will be minor or major are encouraged to arrange a pre-lodgement meeting with the administering authority.

- Major
- Minor

Provide a detailed description of your proposed amendment.

Include a justification of how your proposed amendment meets the criteria for a major or minor amendment and attach any supporting information to this application.

If the amendment is to add or delete a location, tenure or activity, or to change the threshold of an activity, provide details.

---

PROVIDE FULL DETAILS OF THE PROPOSED AMENDMENT (IF INSUFFICIENT ROOM, ATTACH A SEPARATE DOCUMENT). This EA Amendment application is for the construction and operation of a 225mm subterranean HDPE pipeline and associated pumping infrastructure, to carry river water from the Burdekin River to the MSWD at MCO for processing. The proposed pipeline will be approximately 39km long. Approximately 15km of that pipeline will follow the existing pipeline corridor that branches off ML10343 which hosts the King Creek substation power line and under which the raw water pipeline is also approved as an external water pipeline infrastructure corridor as per Schedule A of the site’s EA EPML00982113. The remaining 24km of pipeline that is the subject of this application for a mining lease will branch off from Johnny Cake Road and then follow the Strathalbyn Station Access Driveway across Strathalbyn Station to the Burdekin River.

The proposed mining lease will be 8m wide along the remaining 24km, comprising an additional 19.2ha of disturbance under the site’s EA. Utilisation of pumping infrastructure already in place at the Burdekin River is included in the agreement between MCO and the landholder, though MCO intend to upgrade some of the pumping equipment to ensure most effective
performance and monitoring of water uptake.

As part of MCO’s ongoing water supply strategy, a 400 ML raw water allocation has been secured from an adjoining landholder of the project. Through negotiations with the landholder of Strathalbyn Station, which lies due west of ML10343 and underlies MLA10375, MCO have arranged to utilise the landholder’s existing water allocation from the Burdekin River up to 400ML annually.

The amendment is a major amendment, as a minor amendment does not relate to a new relevant resource tenure for the EA that is a new mining lease, and this application does relate to a new mining lease and is subsequently a major amendment.

3. Describe the land where the proposed amended activities will be carried out

☐ The activity will be carried out within the existing approved footprint of the environmental authority.

☐ The activity is mobile and temporary and will be carried out in a new area:

AREA OF OPERATION E.G. PARTICULAR LOCAL GOVERNMENTS OR ACROSS THE STATE OF QUEENSLAND

☒ The activity will be carried out at a new fixed location as follows:

GENERAL DESCRIPTION OF LAND E.G. ENVIRONMENTAL VALUES, BIOREGIONS AND REGIONAL ECOSYSTEMS, TERRAIN, SHALLOW GROUND WATER SYSTEMS, FLOODPLAINS, SPRINGS AND SOIL DESCRIPTIONS

THESE CREEKS ARE MAINLY EPHEMERAL, THOUGH SOME ARE KNOWN TO CONTAIN PERENNIAL WATER POOLS, WHICH ARE A RESULT OF GROUNDWATER EXPRESSION IN AREAS OF LOW RELIEF DURING THE DRY SEASON.

THE PROPOSED PIPELINE ROUTE INTERSECTS A MAPPED FLOODPLAIN IN THE VICINITY OF KING CREEK. INTERACTION WITH THIS FLOODPLAIN IS NOT EXPECTED TO CAUSE ENVIRONMENTAL IMPACTS BECAUSE THE CONSTRUCTION OF THE PIPELINE WILL TAKE PLACE IN THE DRY SEASON, FINISHING AT THE LATEST IN THE EARLY WET SEASON BEFORE THE HEAVY RAINFALL EVENTS TYPICAL OF THE LATER WET SEASON IN THE REGION.

SEPTENTRI AND CANNON SOIL TYPES WERE THE PREDOMINANT TYPES ALONG THE POWER LINE CORRIDOR. SEPTENTRI SOIL IS CONSIDERED STRONGLY SODIC WITH ESP >6 IN THE A HORIZON INCREASING TO ESP >15 AT A DEPTH OF 90CM. THIS SOIL IS CHEMICALLY PREDISPOSED TO EROSION BELOW 10CM, FURTHER INCREASING WITH DEPTH, WHICH IS CONSISTENT WITH THE FINDINGS OF THIS CURRENT SURVEY.
4. **Is the proposed amendment to either add a new ERA, or amend an existing ERA?**

- X No  → go to question 5
- □ Yes □ In making the proposed amendment, I can comply with the eligibility criteria and do not need to vary any of the standard conditions.

- □ In making the proposed amendment, I can comply with the eligibility criteria but am seeking to vary one or more of the standard conditions. Details of the proposed variation are provided in the table below:

5. **Do you currently have financial assurance held as part of the approved environmental authority**

- [ ] No
- [x] Yes → [ ] I will not need to change the financial assurance in relation to this amendment.
  - [ ] I will be changing the financial assurance and have attached the form Application to Amend or Discharge Financial Assurance for an Environmental Authority (EM875)
  - [x] I will be changing the financial assurance and will be amending or replacing my Plan of Operations.

6. **What is the ERA type you are applying to amend?**

- [ ] Prescribed ERA—this application involves only prescribed ERA activities → go to question 7
- [x] Resource activity—this application involves resource activities → go to question 11

**Prescribed ERA information**

This question is only relevant to prescribed ERAs as resource activities will not trigger assessable development under the Sustainable Planning Act 2009.

7. **Are there any development permits in effect or have any development applications been made under the Sustainable Planning Act 2009 to carry out the proposed amendment?**

The final rehabilitation report must be completed in the correct template and contain all the information specified in the template. The final rehabilitation report template is available at www.qld.gov.au using the publication number (EM872) as a search term.

Only a person with appropriate environmental expertise and/or experience in planning and executing site operations should sign this compliance statement. This person may be the environmental authority holder, a full time employee of the environmental authority holder or a consultant to the environmental authority holder.

Methods to verify compliance may include a desktop assessment of documentation, an interview with the landowner/holder or a field operator or a site inspection. Evidence used may include photographs, statements and other documentation (maps, plans, approvals, monitoring results etc.).

If you have identified above that any of the ERAs have not commenced, please complete the below:

☐ I declare that where identified, the ERAs above have not commenced.

9. **Does your environmental authority contain any rehabilitation conditions that are applicable to the ERAs that you are requesting be removed from the environmental authority?**
   - ☐ Yes → you must attach a final rehabilitation report
   - ☐ No

10. **Compliance statement**

   *This compliance statement must be completed by, or on behalf of the environmental authority holder. Once completed, go to question 15*

   Attach a separate document to this application form which states the extent to which:
   - the ERAs being removed from the environmental authority have complied with each relevant condition of approval
   - the final rehabilitation report is accurate (include the date of the final rehabilitation report). Note: The compliance statement only needs to be made for the final rehabilitation report if the answer to question 9 is ‘Yes’

   Describe the qualifications and experience of the person signing the compliance statement.

   Provide details of the date, method and evidence used to verify compliance and accuracy.
Provide the contact number of the person signing the compliance statement

If your amendment application also involves resource activities, go to question 11. Otherwise, go to question 17.
A regional interests development approval (RIDA) is required when a resource activity is proposed in an area of regional interest under the Regional Planning Interests Act 2014. Further information, including applications forms, can be found on the Department of State Development, Infrastructure and Planning (DSDIP) website, www.dsdip.qld.gov.au.

Offset delivery can be staged, however for this to occur, the condition of any approved environmental authority needs to state that both the activity and the offset may be staged. As part of your notice of election for each stage under the Environmental Offsets Act 2014 you are required to provide a detailed assessment of the quantum of impact of that stage and the offset obligation requirement to be delivered for that stage.

11. Is the resource activity located anywhere within an area of regional interest?
   - No
   - Yes, which regional interest area, have or will you require a regional interests development approval?
     - Priority Agricultural Areas (PAAs) application reference:
     - Priority Living Areas (PLAs) application reference:
     - Strategic Environmental Areas (SEAs) application reference:
     - Strategic Cropping Area (SCA, formerly Strategic Cropping Land) application reference:
       - ☒ No regional interests development approval required, I am an exempt activity.

12. Environmental offsets
An environmental offset may be required for an ERA where despite all reasonable measures to avoid and minimise impacts on certain environmental matters, there is still likely to be a significant residual impact on one or more of those matters.

You must verify the presence, whether temporary or permanent, of those environmental matters. For more information refer to the State Significant Impact Guideline at the Queensland Government website at: www.qld.gov.au/environment/pollution/management/offsets/index.html

Will the proposed amendment cause a significant residual impact to a prescribed environmental matter (other than a matter of local environmental significance)?
   - ☒ No
   - Yes, please attach supporting information that:
     - details the magnitude and duration of the likely significant residual impact on each prescribed environmental matter (other than matters of local environmental significance) for the entire activity; and
     - demonstrates that all reasonable measures to avoid and minimise impacts on each of those matters will be undertaken; and
     - if the activity is to be staged, details of how the activity is proposed to be staged

I have attached the supporting information.

13. Public notice requirements. Please select one of the options below:
   - ☒ The application relates to a mining activity only and public notice
and the applicant have responsibilities to make the application notice and application documents available on a website during the public notification period. If the applicant has a website the administering authority will link to the location where the applicant will store these documents. A word searchable electronic PDF copy of the application documents must also be included.

‘Resource activities’ include mining, geothermal, greenhouse gas storage, petroleum or coal seam gas activities.

The administering authority will only link to the applicant’s site or post the application documents if it is determined that the amendment represents a ‘major amendment’ and that public notification is required.

I have included details of the website where copies of the application notice and application documents will be made available during public notification stage. If the administering authority will require permission to link to this website, also provide contact details of the person who will be able to assist the administering authority in this process.

I cannot make this information available on a website. All of the application information has been provided to the administering authority in an electronic format.

An ineligible ERA is an activity that either does not comply with the eligibility criteria or does not have any eligibility criteria in place.

14. Does the application relate to an environmental authority for a coal seam gas activity that is an ineligible ERA?

☒ No → go to question 15

☐ Yes → ☐ I have determined that the amendment will not change the way that CSG water is managed.

☐ I have determined that the amendment will change the way that CSG water is managed and have provided the mandatory information set out below.

<table>
<thead>
<tr>
<th>MANDATORY INFORMATION</th>

<tr>
<td>☐ The quality of the water, including changes in the water quality the applicant reasonably expects will happen while each relevant CSG activity is carried out.</td>
</tr>
<tr>
<td>☐ The proposed management of water including, for example, the use, treatment, storage or disposal of the water.</td>
</tr>
</tbody>
</table>
The measurable criteria (‘management criteria’) against which the applicant will monitor and assess the effectiveness of the management of the water, including, for example, criteria for each of the following:

(i) the quantity and quality of the water used, treated, stored or disposed of

(ii) protection of the environmental values affected by each relevant CSG activity

(iii) the disposal of waste, including, for example, salt, generated for the management of the water.

The action proposed to be taken if any of the management criteria are not complied with, to ensure that the criteria will be able to be complied with in the future.

If the application includes a CSG evaporation dam, an evaluation of the following must be provided:

(i) best practice environmental management for managing CSG water

(ii) alternative ways for managing CSG water

(iii) whether there is a feasible alternative to a CSG evaporation dam for managing the water. Note if the evaluation shows that there is a feasible alternative option, the CSG evaporation dam cannot form part of the water management for this amendment application.

### General ERA information

Completion of an EIS process is defined in section 60 of the EP Act.

The information provided here will assist the administering authority in deciding whether an EIS is required.

For further information refer to the guideline: Triggers for Environmental Impact Statements under the Environmental Protection Act 1994 for mining, petroleum and gas activities. This

#### 15. Has an environmental impact statement (EIS) process that includes the proposed amendment, been completed?

- ☑ No

- ☐ Yes → ☐ I have assessed the environmental risks of the proposed amendment and consider them to be the same as was assessed in the EIS. A copy of the assessment is attached. Go to question 18

- ☐ I have assessed the environmental risks of the proposed amendment and consider them to be different to what was assessed in the EIS. Go to question 16

17. Assessment of the environmental impact and provision of specific supporting information

You must provide an assessment of the likely impact of the proposed amendment on the environmental values, including the following mandatory information in the table below, unless the not applicable check box is ticked.

Only tick the ‘Not Applicable’ check box if the proposed amendment does not cause a change to the environmental values, aspects and impacts as approved under the current environmental authority.

Where the ‘Not Applicable’ option is selected, sufficient information must be provided to support this determination, as the determination forms part of the required assessment.

The administering authority may decide that an EIS is required for the amendment application (refer to section 142 of the EP Act).

Public notification may also be applicable to the amendment if the application is for a resource activity and the proposed amendment is considered to be a ‘major amendment’ (as defined in section 223 of the EP Act).
You must include a description of the proposed measures for minimising and managing waste generated by the proposed amendments.

For further information on technical information to provide with your application, please refer to the business and industry website [www.business.qld.gov.au](http://www.business.qld.gov.au).

made by the administering authority. However, you are required to pay either the ‘minor’ or the ‘major’ fee you think is applicable to the proposed amendment application. Criteria for a major or minor amendments and guidance on the difference between the two can be found in the guideline: ‘major and minor amendments’ EM959

Any incorrect application fee will be detailed on the assessment level decision notice. This assessment level decision notice will also include outstanding application fee payment options.

Where there is more than one holder of the environmental authority, this declaration is to be signed by all holders, unless there is an agreement between all holders that one can sign on behalf of the other.

Note: If only one holder is signing this application form, they are committing all holders to the content of the application and the declaration.

Where the environmental authority holder is a company, this form must be signed by an authorised person for that company.

Privacy statement
The Departments of Environment and Heritage Protection (EHP) and Agriculture, Fisheries and Forestry (DAFF) are collecting the information on this form to process your amendment application for an environmental authority. This collection is authorised under sections 222 to 227 of the Environmental Protection Act 1994. Some information may be given to the Department of Natural Resources and Mines (DNRM) for the purposes of processing this application and/or the administration of the Strategic Cropping Land Act 2011. Your personal information will only be accessed by authorised employees within these departments and will not be disclosed to any other parties unless authorised or required by law. 22. Declaration

Note: If you have not told the truth in this application you may be prosecuted.

Where an agreement is in place between all holders of the environmental authority, that 1 holder can sign on behalf of the other joint holders, please tick the below checkbox.

☒ I have the authority to sign this form on behalf of all the joint holders of the environmental authority.

I declare that:

- I am the holder of the environmental authority, or authorised signatory for the holder of the environmental authority.

- If the proposed amendment is made, the relevant activities will continue to comply with the eligibility criteria for all eligible ERAs, or where they cannot, I have indicated otherwise in my application and provided the required support information.

- The information provided is true and correct to the best of my knowledge. I understand that it is an offence under section 480 of the Environmental Protection Act 1994 to give to the administering authority or an authorised person a document containing information that I know is false, misleading or incomplete in a material particular.

- I understand that I am responsible for managing the environmental impacts of these activities, and that approval of this application is not an endorsement by the administering authority of the effectiveness of management practices proposed or implemented.
